**ABSTRACT** EP-370470 Cosmetic compsns. comprise a daylight fluorescent pigment (I) and a cosmetic carrier. (I) is a daylight fluorescent dye (II) dissolved in a carrier resin (III). (I) is admixed in the cosmetic carrier to make the compsn. fluorescent when applied to person's skin, hair or nails.

Dye (II) is FD+C Red No. 3., D+C Yellow No. 8, D+C Red No. 22 or 28, D+C Orange No. 5 or 11 and/or D+C Green No. 8. Carrier (III) an acrylic, cellophane, fluorocarbon, polyamide or polyester resin (I) contains 0.1-50 wt.% (II), esp. 0.5-50%. The compsn. is in the form of a lipstick, powder or semi-liquid. Skin, hair, nails, lip or cheeks are made fluorescent by applying the compsn.

**ADVANTAGE** - Daylight fluorescent pigments have not been used in cosmetics before. (5pp Dwg.No.0/0)

EP-370470 A cosmetic composition comprising: (a) a daylight fluorescent pigment comprising a daylight fluorescent dye dissolved in a carrier resin, and (b) a cosmetic carrier having admixed therein said daylight fluorescent pigment in an amount effective to provide a fluorescent effect to the composition when it is applied to a person's skin, hair or nails. (Dwg.0/0)
